Dental tools
Machine items

SPECIFICATION

Model Name:
ULTRA 8050

Timer Settings:
5 time settings; 90s - 480s (8min)
with automatic shut-off

Tank Size:
2500ml (MAX. fluid level 2100ml)

Ultrasonic Frequency:
42,000Hz (42 kHz)

Power Consumption:
170W Max

Power Supply:
AC 220-240V 50Hz

Mains Fuse:
3A

Unit Dimensions (LxWxH):
290x223x185mm

Weight (Unit only):
2.5kg (5.5lbs)

Weight (Gross):
3.2kg (7lbs)

ULTRA 8050

PROFESSIONAL ULTRASONIC CLEANER

ULTRASONIC CLEANING MADE SIMPLE *for professional use*

- Large 2.5L stainless steel tank
- 5 program digital timer (90s - 480s)

- Auto shut off
- Enhanced circuit operation
- 170W cleaning power
- Overheat protector
- Cooling fan
- Sealed electronics
- Detachable power cable
- Quiet operation
- Full CE and RoHS approval

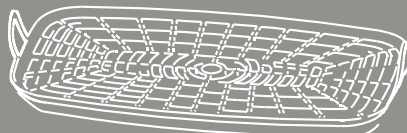

Ultrasonic cleaners function by producing sound waves that are transmitted into the tank and cleaning solution. These waves create millions of microscopic bubbles, which collapse or 'implode', releasing large amounts of energy, which scrub the surface clean. This process is called 'Cavitation'.

These tiny bubbles create incredible cleaning results not only to the surface, but by penetrating the finer detail and recesses in jewellery and small items to restore them to their former glory.

The Ultra 8050 Ultrasonic Cleaner has been designed for the professional user. With our continued research & development we found the ideal size, features, specification and of course price to cater for many different applications. The Ultra 8050 has a large stainless steel tank capable of holding an item as long as 26cm/10.2" in length. Whether in your jewellery shop, dental studio or workshop, the Ultra 8050 will handle your cleaning requirements with ease. Featuring a large 2.5 litre stainless steel tank with programmable timer so you can clean without having to interrupt your work. The Ultra 8050 also has a built in heater, which when programmed will heat the water to a useful 60°C, enhancing your cleaning ability. To finish the package a basket to hold your smaller items is included.
